

# Fact Sheet

## ProVation® Medical/Wolters Kluwer Health

### The Company:

ProVation Medical, part of Wolters Kluwer Health, provides software solutions for hospitals and health systems that streamline procedure documentation while improving the accuracy of medical coding to accelerate revenue recovery. The company's software is installed at more than 500 hospitals and ambulatory surgery centers nationwide.

### Products/Services:

ProVation currently offers three individual software suites, each aimed at producing accurate, efficient information at the point of care while reducing transcription, paper storage and image printing costs:

- *ProVation MD*: the first medical-procedure documentation and coding-compliance solution to let medical specialists create highly detailed notes in just minutes, ProVation MD enhances patient safety through better documentation, automatic data tracking and quality improvement.
- *ProVation EHR*: the first electronic health record designed for busy, cost-conscious ambulatory surgery centers, ProVation EHR offers robust electronic documentation and document imaging for all elements of the patient encounter, from past records and procedure documentation to follow-up care.
- *ProVation MultiCaregiver*: providing complete perioperative documentation for the hospital GI lab, ProVation MultiCaregiver allows nurses, anesthesiologists, surgeons and other caregivers to quickly gather and share clinical information.

### Executive Team:
