RICH MEDICAL CONTENT THAT INCLUDES:

- Endoscopic procedures like:
 - Cystoscopy with numerous manipulations
 - Ureterscopy including Stone Manipulation, Removal and Lithotripsy
 - Treatment Ureteral Stricture
- Bladder Tumor Resection
- TURP
- Open procedures including:
 - Radical Nephrectomy
 - Cystectomy
 - Radical Prostatectomy
- Laparoscopic procedures such as:
 - Radical and Donor Nephrectomies
 - Hand-assisted Partial Nephrectomy
 - Robotic Procedures including:
 - Radical Retropubic Prostatectomy
- Other prostate procedures including:
 - Prostate Ultrasound
 - Biopsy
 - Brachytherapy
 - Transurethral Needle Ablation
 - Transurethral Microwave Therapy

Covering procedures in all urologic areas such as adrenal, kidney, urethra, etc.
 Mapped to more than 325 CPT-4 Codes and more than 550 ICD-9 Codes

Urology

- Creates a single, complete and easily retrieved electronic note for each procedure
- Comprehensive medical content built by ProVation's in-house physician team
- Instantly and automatically prepares Patient Letters, Referring MD Letters, CC: Letters, Post-Op Orders and Patient Instructions
- "Preferences" feature allows surgeons to save menus of selections for commonly performed procedures for faster documentation
- Interfaces with cystoscopes and other image capture equipment for instant inclusion of image in note
- Based on physician entries, CPT-4 and ICD-9 codes and CCI edits are automatically generated
