“2011 Top 20 Best in KLAS Awards” Report Names ProVation Medical® Software Number One in Clinical Procedure Documentation

Minneapolis, MN (December 20, 2011) – [Wolters Kluwer Health](#), a leading global provider of information for healthcare professionals and students, announced today that its ProVation® MD software received top ranking in the Clinical Procedure Documentation Category of the *2011 Top 20 Best in KLAS Awards: Software & Professional Services* report. This marks the seventh consecutive year ProVation MD has been ranked Number One by [KLAS](#), an independent healthcare IT vendor research firm that recognizes healthcare vendors for their leadership in working with customers to ensure satisfaction.

The KLAS Category Leader ranking measures performance based on customer surveys and in-depth interviews and gauges insight into specific strengths, weaknesses and future expectations for companies and their products. This annual recognition assists medical facilities in providing an unbiased and accurate vehicle for measuring performance in the healthcare industry, allowing for further understanding of how well suppliers and products perform.

“Meeting our clients’ needs requires staying one step ahead of the curve in today’s rapidly changing healthcare environment. We are honored by this year-over-year achievement, which validates our commitment to ensuring clients have the necessary tools to achieve efficiencies, maintain compliance and provide patients with quality care,” said **Mike Haldane, Vice President and General Manager, Clinical Documentation/ProVation Medical, Wolters Kluwer Health Clinical Solutions**. “This recognition also reflects the long-standing dedication and world-class service provided by our clinicians, coders and customer support team, who work alongside our clients to support their efforts with industry-leading documentation and coding solutions.”
