## Moore Regional Hospital Selects ProVation Medical Software for Procedure Documentation and Coding

MINNEAPOLIS, MN – May 11, 2011– [Wolters Kluwer Health](#), a leading global provider of information for healthcare professionals and students, announced today that Moore Regional Hospital has selected its [ProVation® MD](#) software for gastroenterology procedure documentation and coding.

ProVation MD replaces dictation and transcription and allows physicians to efficiently document procedures at the point of care. Available for a full range of medical specialties, ProVation software streamlines the coding and billing process and enhances compliance by producing complete, coding-ready and image-enhanced procedure notes. The end result is greater efficiency, increased profitability and heightened clinician satisfaction.

Located in Pinehurst, NC, the 372-bed [Moore Regional Hospital](#) is a not-for-profit facility serving Moore County and the 14 surrounding counties. It is the flagship hospital for FirstHealth of the Carolinas and the region's first comprehensive healthcare network with specialties including cardiology, gastroenterology, internal medicine, neonatology, nephrology, pulmonology, and radiology.

“Moore Regional Hospital is clearly devoted to providing patients with the highest quality care, as evidenced by the results of numerous patient satisfaction surveys,” said **Arvind Subramanian**, President and CEO, Wolters Kluwer Health Clinical Solutions. “We are pleased that they have selected ProVation MD for GI to further that quality of care and provide streamlined documentation and coding in the GI lab.”

Wolters Kluwer Health's Clinical Solutions business unit provides evidence-based medical content, workflow-based application software and services that allow clinicians to efficiently and effectively diagnose and document patient care. Key brands ProVation Medical, UpToDate®, Medi-Span®, Facts & Comparisons®, Pharmacy OneSource® and Medicom (China) lead in market segments that include drug information, disease information, clinical patient order sets, clinical documentation and hospital pharmacy productivity applications.
