### Shamokin Community Area Hospital Selects ProVation Medical Software for Procedure Documentation and Coding

MINNEAPOLIS, MN – October 26, 2011 – [Wolters Kluwer Health](#), a leading global provider of information for healthcare professionals and students, announced today that Shamokin Community Area Hospital (SCAH) has selected its [ProVation® MD](#) software for gastroenterology procedure documentation and coding.

ProVation MD replaces dictation and transcription and allows physicians to efficiently document procedures at the point of care. Available for a full range of medical specialties, ProVation software streamlines the coding and billing process and enhances compliance by producing complete, coding-ready and image-enhanced procedure notes. The end result is greater efficiency, increased profitability and heightened clinician satisfaction.

Located in Coal Township, Pa., the 70-bed [Shamokin Community Area Hospital](#) is a not-for-profit community sponsored healthcare organization providing comprehensive medical, emergency, physician and hospital services. Specialty clinics include cardiology, dermatology, otolaryngology, gastroenterology, gynecology, physiatry, general and vascular surgery, and orthopaedics.

“Shamokin Community Area Hospital is committed to providing high quality, cost-effective healthcare services to the communities served,” said **Arvind Subramanian**, President and CEO, Wolters Kluwer Health Clinical Solutions. “We are pleased that they have selected ProVation MD software to further this mission and provide streamlined documentation and coding at the point of care.”

Wolters Kluwer Health’s Clinical Solutions business unit provides evidence-based medical content, workflow based applications software and services that allow clinicians to efficiently and effectively diagnose and document patient care. Key brands ProVation Medical, UpToDate®, Medi-Span®, Facts & Comparisons®, Pharmacy OneSource®, Lexicomp™ and Medicom (China) lead in market segments that include drug information, disease information, clinical patient order sets, clinical documentation and hospital pharmacy productivity applications.
