University Medical Center of Princeton at Plainsboro Selects ProVation Medical Software for Procedure Documentation and Coding

MINNEAPOLIS, MN –Nov. 8, 2011 – [Wolters Kluwer Health](#), a leading global provider of information for healthcare professionals and students, announced today that the new University Medical Center of Princeton at Plainsboro has selected its [ProVation® MD](#) software for gastroenterology procedure documentation and coding.

ProVation MD replaces dictation and transcription and allows physicians to efficiently document procedures at the point of care. Available for a full range of medical specialties, ProVation software streamlines the coding and billing process and enhances compliance by producing complete, coding-ready and image-enhanced procedure notes. The end result is greater efficiency, increased profitability and heightened clinician satisfaction.

A unit of the Princeton HealthCare System, the 231-bed [University Medical Center of Princeton at Plainsboro](#) is slated to open on May 22, 2012. The state-of-the art hospital, located in Plainsboro, NJ, will be a dynamic center of medicine and technology, comfort and compassion, disease prevention and education and will reflect the most advanced thinking about the way people interact as they work toward health and healing.

“Princeton HealthCare System is dedicated to transforming the hospital experience at its new University Medical Center of Princeton at Plainsboro with digital technology, from admissions to discharge, and enabling medical staff to consult health records from virtually anywhere,” said **Mike Haldane, Vice President and General Manager, Clinical Documentation, Wolters Kluwer Health Clinical Solutions**. “We are pleased that they have selected ProVation MD for GI to further this mission in the new facility by providing clinicians with access to streamlined documentation and coding in the GI lab.”

Wolters Kluwer Health’s Clinical Solutions business unit provides evidence-based medical content, workflow based applications software and services that allow clinicians to efficiently and effectively diagnose and document patient care. Key brands ProVation Medical, UpToDate®, Medi-Span®, Facts & Comparisons®, Pharmacy OneSource®, Lexicomp™ and Medicom (China) lead in market segments that include drug information, disease information, clinical patient order sets, clinical documentation and hospital pharmacy productivity applications.
