

Top Four Ways Provation® MD Can Enable

APPROPRIATE PAYMENT & COST REDUCTIONS

“The revenue enhancement we saw was better than the dictation savings [of approximately \$150,000 annually]. The physicians were capturing more of their work, and the documentation allowed our coders to appropriately code.”

— Kevin Hoak, Director of Perioperative Services
Presence Saints Mary and Elizabeth Medical Center

1

Automated Accurate Coding

Automatically assigns current codes for all reimbursable actions as procedure notes are created, helping ensure appropriate payment and compliance.

2

Completeness of Procedure Notes

The depth of details captured can reduce or even eliminate transcription costs, simplifying the process and decreasing administrative burden.

3

Anticipatory Interface™

Prompts for additional relevant detail reduce staff time and improve the reliability of data elements, minimizing assumptions in registry and quality reporting requirements.

4

Structured Data

Can create built-in efficiencies that allow for quick data analysis, business intelligence and content that is traceable, trackable, trusted and timely.

Provation® MD can:

- ✓ Drive Accurate Reimbursement and Reporting
- ✓ Shorten Time to Bill
- ✓ Reduce Rejected Claims
- ✓ Decrease Administrative Burden
