Shrink Your IT Footprint

For some hospitals, health systems and ASCs, keeping up with Provation® MD software updates and infrastructure maintenance can be a challenge. By migrating to our cloud-based Provation® Apex platform, you can shrink your IT footprint and reduce operational burden—reducing support staff time needed to manage software, hardware, and cybersecurity. Instead of refreshing your servers, consider investing in Provation Apex, the solution that's always updated and continuously increasing in value.

Personalization & Productivity in a Modern UI

With Provation Apex, our experts have added personalization and productivity features that just weren't possible before. Best yet, all these great features are presented in simple, modern user interface (UI) with familiar icons and easy-to-use functionality.
