Quality Concierge®

Your complete quality improvement, reporting, and data management solution

Designed by anesthesiologists in partnership with the Anesthesia Quality Institute (AQI) and American Society of Anesthesiologists (ASA), Quality Concierge® is the leading platform to avoid CMS penalties, optimize your performance position in the MIPS program, prepare for value-based payment models, and report seamlessly to NACOR.

Quality Concierge is an affordable, full-service quality reporting and analytics solution with:

Streamlined Reporting

- Conveniently submit quality data from any EHR or on the go through a mobile device
- Free up time with automated submission to NACOR
- Access real-time data through provider and administrative dashboards
- Efficiently monitor performance, provider care, and patient outcomes and experience through Patient Experience Surveys

Actionable Analytics

- Robust data to help demonstrate your value and support meaningful quality improvement initiatives
- QA compliance tracking to help you identify and recover lost revenue and track case delays and cancellations, and monitor provider care, patient outcomes and experience, and performance against national benchmarks
- Improved ability to positively influence negotiations, contracts, stipends, and reimbursement

Established Integrations

Integrate, aggregate data, and streamline documentation with:

- ✓ Major EHRs, including Cerner, Epic, and more
- ✓ Community health records
- ✓ Clinical repositories
- ✓ AIMS platforms
