

# Provation<sup>®</sup> Apex Video Feature

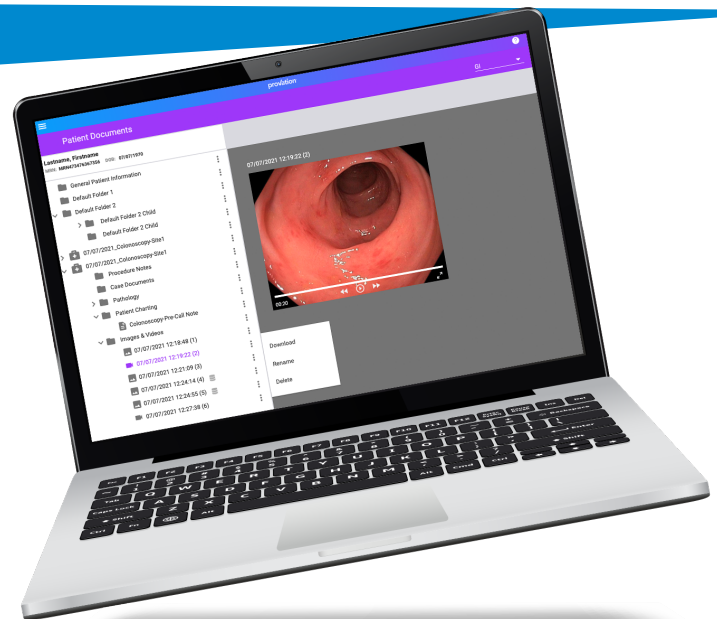

Enhance your training and academic submission process with Provation<sup>®</sup> Apex Video.

Provation Apex Video enables physicians to easily record videos of procedures or key findings and maneuvers. Videos are saved securely on the cloud-based Provation Apex platform, so they can be accessed on any internet-enabled device.

## Video Feature Workflow

Provation Apex Video is easy to use:

- 1 Go to image capture in Provation Apex.
- 2 Click on the record button to start and stop the recording. Physicians can start and stop multiple times per procedures to create multiple videos. Physicians can also capture images while recording video
- 3 View, download, or delete the video by going to Patient Documents.
