

Anesthesia Patient Experience Surveys

Gain Valuable Insights Without Provider or Administrative Burden

Leverage Feedback from Your Patients — Create a Better Patient Experience. It's that Simple.

Provation Patient Experience Surveys empower anesthesia teams with a standardized way to capture patient feedback, show value, gain insights, and collect data for AQI48 without provider or administrative burden.

Demonstrate Value

Positively influence negotiations, contracts, and reimbursement.

See Data in Real-Time

Monitor provider care, patient outcomes, and patient experience in real-time.

Benchmarking

Benchmark provider and group performance against national data.

Support Quality Efforts

Leverage insights for internal improvement initiatives.

This standard six-question patient survey streamlines the collection of meaningful data — eliminating the need for additional training and encouraging patients to provide their valuable insights.

- ✓ Mobile access for patients
- ✓ Easy to implement
- ✓ Simple to manage
- ✓ Text and email patient communication
- ✓ Fully automated surveys and feedback reports
- ✓ Does not replace or conflict with facility CAHPS

**6 Questions.
60 Seconds.
All the data you need.**

1. On a scale of 1 to 5, where 1 indicates the worst anesthesia experience and where 5 indicates the best anesthesia experience, how would you rate your anesthesia experience?
2. Rate how your anesthesia provider(s) communicated with you and/or your family.
3. Rate how your anesthesia provider(s) attended to your overall comfort and wellbeing.
4. Rate how well your anesthesia provider(s) helped manage your postoperative pain.
5. Rate your overall Anesthesia Preoperative Education and Preparation.
6. Please enter any additional comments.

Anesthesia Patient Experience Surveys

AQI48 is Among the Simplest MIPS & MVP Measures to Capture & Report

The assessment of patient satisfaction that Quality Measure AQI 48 provides enables providers to improve care delivery and quality with the highest standards in the practice of anesthesiology.

Provation Anesthesia Patient Experience surveys are designed to meet the survey requirements of this initiative and capture each opportunity for patient feedback.

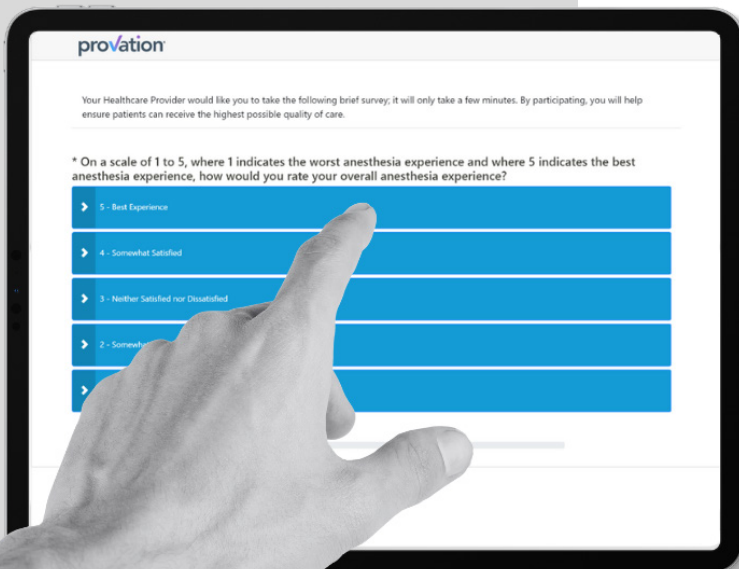

Review, Grow, Profit.

Admin dashboards display both group collective results and individual provider results. Providers can also view their individual results on mobile.

Understanding how each provider fits into the big picture promotes a unified team.
