Provation® iPro HL7 Interfaces and Connections with MEDITECH

Maximize your IT investment and improve workflow efficiency

The Provation iPro platform leverages HL7 interfaces to integrate with and extend existing IT system investments. Provation has made it easy for facilities to streamline workflows and support the seamless exchange of health information.
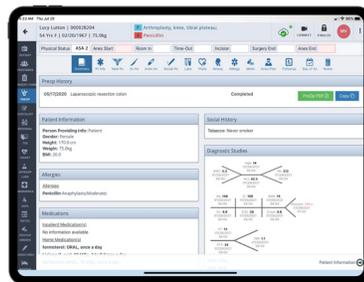

Benefits:

- Maximizes utilization of existing IT systems
- Enhance clinician productivity by eliminating redundancy from clinical workflows
- Get experienced, professional implementation
- Support quality of patient care and patient experience
