

Provation® Mira iPro Insights

Unlock the Full Potential of Your Data—Fast, Flexible, Tailored Insights

Whether you're managing clinical operations, billing workflows, or provider scheduling, Provation Mira iPro Insights with AI helps you do more in less time—cutting costs and boosting efficiency with every report. Designed for real-world flexibility, it transforms how teams access insights, make decisions, and share results.

Why Mira iPro Insights?

AI Assistant

Generate custom reports and dashboards instantly using simple, conversational commands—no technical expertise needed.

Personal Dashboards

Empower every user to build and share dashboards tailored to their role—clinical, operational, billing, or administrative.

Easy Customization

Add or edit fields and labels on reports yourself—no developer required.

And More!

Flexible visuals, export, scheduling and pre-built dashboards for key metrics.
