

# Provation® iPro Lite

Speed Through Charting. Maximize Revenue. Stay Compliant.

## Are incomplete anesthesia records costing your practice revenue and risking compliance?

Provation iPro Lite is a **fully phone-based**, intuitive Anesthesia Information Management Solution (AIMS) built to solve the documentation, billing, and compliance challenges faced by Ambulatory Surgery Centers (ASCs) and Mobile Anesthesia Groups.

### Why Provation iPro Lite?

#### Built-In Charge Capture Templates

Automatically generate compliant billing records—no more missed charges or manual errors.

#### Configurable Workflows

Tailor documentation to your facility's needs with configurable workflows and templates.

#### Mobile & Intuitive

Chart from anywhere—on tablets or phones—with a user-friendly interface designed by anesthesiologists.

#### Powerful Insights

Real-time dashboards and reporting deliver clinical and operational intelligence to optimize care and revenue.

### Designed for High-Volume, Low-Complexity Environments

**ASCs:** Streamlined workflows for fast-paced, high-throughput care settings

**Mobile Anesthesia Groups:** Lightweight, flexible tools for multi-site operations

**Small Teams:** Minimal IT burden, fast onboarding, and low-maintenance setup

*Discover the difference complete, compliant, and mobile documentation can make.*
