

The True Cost of Paper Documentation

The Problem: Paper is Costing You More Than You Think

In high-volume outpatient care settings, paper-based anesthesia documentation creates inefficiencies that directly impact your bottom line, compliance, and operations.

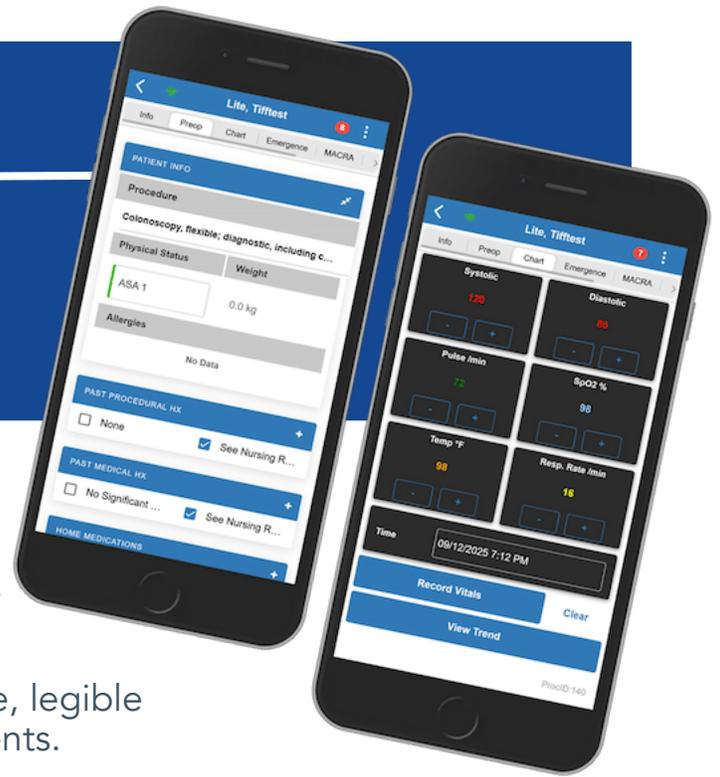

Critical Challenges with Paper Documentation

Revenue Leakage	<ul style="list-style-type: none"> • Incomplete charge capture leads to missed billable services • Manual billing processes increase errors and claim denials • Reimbursement delays affect cash flow
Compliance Vulnerabilities	<ul style="list-style-type: none"> • Illegible records make auditing difficult • Incomplete documentation creates gaps in clinical narratives • Lost charts create compliance violations and patient safety risks
Wasted Time	<ul style="list-style-type: none"> • Providers repeatedly write the same information manually • Billing staff chase down providers to clarify charges • Administrative time spent on chart management and filing
Lack of Actionable Intelligence	<ul style="list-style-type: none"> • Unable to identify patterns in clinical outcomes • Difficult to analyze case durations or resource utilization • No real-time visibility into charge capture performance

The Solution: Provation[®] iPro Lite

A purpose-built, fully mobile AIMS platform designed specifically for anesthesia groups and ASCs to maximize revenue, reduce risk, and improve performance.

Key Benefits

- ✓ **Automated Charge Capture:** Accelerate reimbursement and maximize revenue.
- ✓ **Audit-Ready Documentation:** Complete, legible records that meet compliance requirements.
- ✓ **Mobile-First Workflows:** Free clinicians to focus on patient care, not paperwork.
- ✓ **Real-Time Analytics:** Data-driven insights for clinical, operational, and financial decisions.

Built on Excellence

Provation iPro Lite is based on the same physician-designed foundation that made Provation iPro the top-rated AIMS platform in the industry.

TAKE THE NEXT STEP

Book a demo or speak with a Provation expert to learn how [Provation iPro Lite](#) can help your team eliminate inefficiencies, maximize revenue capture, and use data to drive continuous improvement.

Designed for High-Volume, Fast-Paced Environments

ASCs
Streamlined workflows for fast-paced, high-throughput care setting.

Anesthesia Groups
Lightweight, flexible tools for multi-site operations.

Small Teams
Minimal IT burden, fast onboarding, and low-maintenance setups.
