

Meet Provation® Apex Advanced Procedures

Complex cases, finished faster.

Provation Apex Advanced Procedures is a new streamlined documentation workflow that reduces clicks and friction, enabling faster completion of ERCP and EUS procedure notes — your way, with control and personalization.

SPEED WITHOUT FRICTION.

Complete ERCP & EUS documentation more efficiently with fewer workflow interruptions.

REDUCED MENTAL LOAD.

Capture details in the moment and reduce reliance on memory while maintaining high-quality, provider-preferred notes.

STANDARDIZATION WITH EASE.

Create a more consistent documentation experience without sacrificing provider autonomy.

KEY FEATURES

Pre-Built ERCP & EUS Templates

Choose from six ready-to-use templates to kickstart documentation instead of building notes from scratch.

Live Note View

See live updates to in-progress note as you navigate through documentation menus.

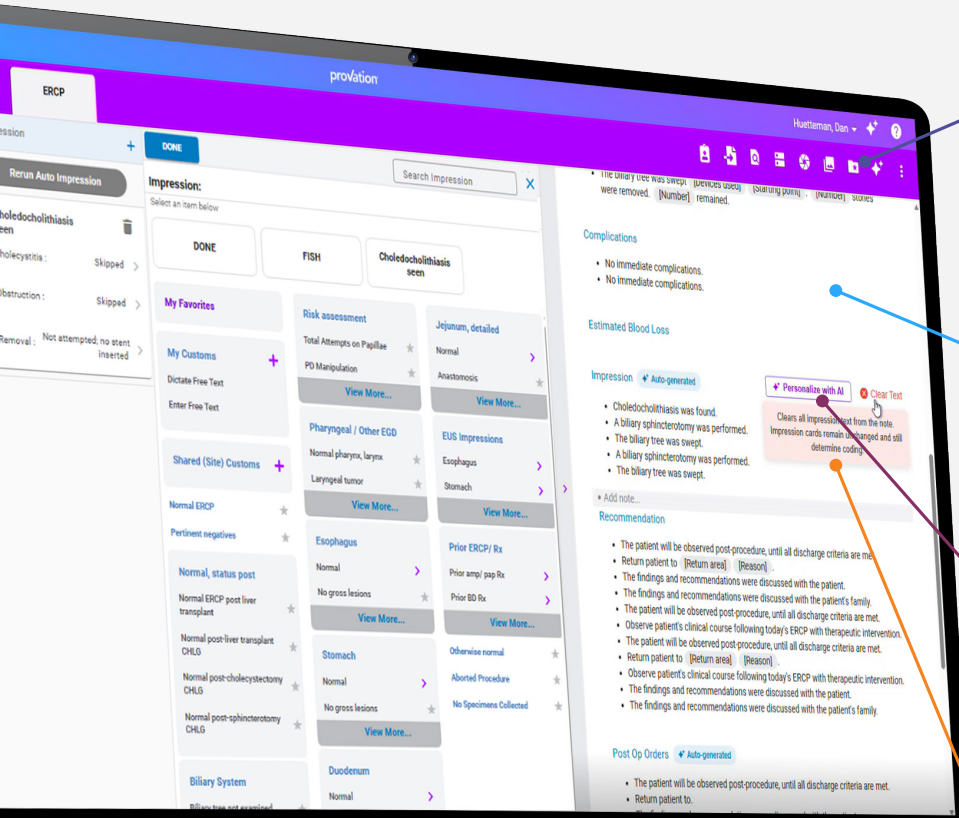

Personalized Impressions

Use AI to generate impressions that reflect your unique documentation style, based on your previous notes for the same procedure type.

Enhanced Final Note Editing

More easily adjust generated content to match your documentation style through free-text bullets, third-party dictation to transcription, and “quick clear” impressions.

INCLUDED WITH PROVATION APEX
